

24 CARAT GOLD FACIAL

Experience the latest innovation in anti-ageing and skin rejuvenation, 24 Carat Gold Facial

The perfect combination of 24 Carat Gold Serum and Gold Mask infuses an age reversing peptide into the skin via leading edge micro-current technology. It is a relaxing and pampering treatment that will make you feel good while providing you with outstanding results quickly.

Just one Gold Mask treatment will help relax the facial muscles, reduce the appearance of lines and improve the plumpness of skin to provide visible results in the form of glowing youthful skin.

The Gold Mask is infused using micro-current technology, the active ingredients penetrate the skin more deeply to stimulate muscle tissue and give dramatic results very quickly, immediately followed with the Yaffa Zhav Gold Serum resulting in glowing and healthy looking skin.

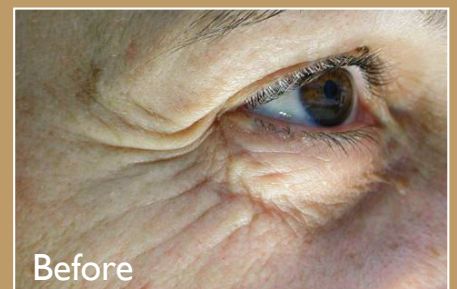

Contains Pure Gold Powder.

This mask will return damaged sensitive skin to the original healthy, glowing and firm skin.

The Yaffa Zhav Miracle 24 Carat Gold Serum and Gold Mask has the following benefits:

- Firming effect containing Collagen, Elastin, Centella Asiatica Extract and Peptides
- Antioxidant
- Calming Anti-inflammatory
- Skin Hydration

The Yaffa Zhav Miracle 24 Carat Gold Serum and Gold Mask contains nanowater which helps highly active ingredients stay stable until they reach deep within the skin, into the damaged skin cell.

Zhav 24ct Gold Derma Mask & Gold Serum: Leading technology in anti-ageing & skin hydration

Gold is helping restore sensitive and damaged skin to its original healthy, firm condition.

The revolutionary Zhav Derma Gold Mask & Gold Serum contains 0.2gm of 100% pure gold for cosmetic purposes and nano-water which is skin-friendly and keeps the active ingredients stable until they reach deep into the skin to the damaged skin cell. The 24ct Gold Ion absorbed into the skin increases circulation and cell metabolism while eliminating dead skin cells.

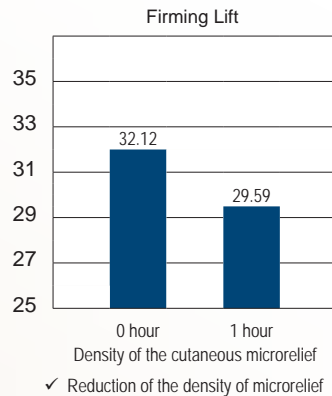

A woman's skin begins to lose elasticity during her mid-20's due to ageing and damage from UV rays, pollution and stress. For decades women have been trying to stall and even reverse the effects of ageing and environmental damage. This new innovation not only provides the results women want, it uses a well know natural element to achieve these outstanding results – **GOLD**.

The gold contained in the mask & serum is in colloidal form which helps to accelerate the anti-ageing benefits of gold, which include:

- Firming** collagen, elastine and lupin work to restore the skins elasticity and minimise fine lines.
- Antioxidant** damaged cells are rejuvenated by the antioxidant tocopheryl acetate.
- Calming** portulaca oleracea extract relieves sensitive skin and restores the immunizing capacity of the skin damaged by UV light.
- Moisturising** amino acids, saccharides and sodium hyaluronate restore the skin's moisture level, which in turn makes the skin smoother.
- Lupin** a form of plant oestrogen that has antioxidant properties.
- Centella Asiatica** antibacterial, wound healing.
- Portulaca Oleracea Extract** anti inflammatory.

Studies have shown using Gold Mask & Gold Serum reduces the density of the skin surface's structure by up to 2.5% in just 1 hour! Leaving the skin smoother and reducing the appearance of wrinkles.

For optimum results, a course of six Zhav Derma Gold Masks treatments is recommended within the initial six weeks, followed by one treatment per month thereafter to maintain effectiveness. The added benefit is that salons can also infuse the Zhav Derma Gold Mask with the Zhav Dynamic Lift™ or micro-current technology, follow with Yaffa Zhav Gold Serum for home use.

Thus, salons can increase their profits by combining the two treatments – the mask and the Zhav Dynamic Lift™. However, the mask can be used independently if required.

The Zhav Derma Gold Mask is applied in nine simple steps (listed below) and takes just 45 minutes. The mask is then supported with Yaffa Zhav Gold Serum, to be used by the client at home between treatments.

The Zhav Derma Gold Mask offers you the opportunity to provide clients with visible and long term results that will keep them coming back for more treatments.

Nine simple steps:

1. Cleanse and tone the skin
2. Apply eye cream to clients with sensitive eyes
3. Open mask package and take out the tray
4. Remove clear film from the mask
5. Place the upper part of the mask around the forehead and eye area and smooth the lower part of the mask around the mouth and cheek area
6. Apply a small amount of water on top of the mask to help guide roller over the mask
7. Infuse for 15-20 minutes using the Zhav Dynamic Lift™ (or other galvanic or micro-current machine)
8. Remove mask
9. Apply Yaffa Zhav Gold Serum and Yaffa Zhav Day Cream
